2" SANDWICH
INSULATED

TOP OF THE LINE!

2" Thick thermally efficient steel sandwich insulated model, exceptional beauty and durability. Pressure bonded and environmentally safe polystyrene insulation is sandwiched between 2 hot dipped galvanized pre-painted steel door skins. To make this rigid insulated sandwich more durable, more reliable and energy efficient. This model is a best buy. The clean white appearance will brighten the inside of your garage day after day. R-Value10
